Become a Productive JavaScript Developer on the Cloud
Abhinav Shroff @abhinavshroff, Principal Product Manager @Oracle
Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for Oracle’s products remains at the sole discretion of Oracle.
Application Development Modes
Moving from Intermediate to Hi-Tech

Productivity

Control

No Code
Low Code
Full Control

Intermediate Tech to Hi-Tech
Oracle JavaScript Extension Toolkit (JET)
Oracle Visual Builder Cloud Service

Build and host web and mobile applications in a faster and simpler way with zero install and visual development experience
Key Features

- Declarative REST consumption
- Declarative Service Access definition
- Oracle JET based UI development
- Support for both Visual and Code based editing
VBCS Building Blocks Interactions
